1) Summary

This project is intended to leave a digital legacy of memory for my family posterity. This contains 5 areas of life such as 1) family genealogy 2) family value and wisdom 3) family memorable events 4) the world of video music 5) Autobiography. Sharable data are stored in online websites and private data are stored in local external drive and personal computer. The system is very user-friendly with menu-driven display and finger tip access.

- 7) YTD Video Downloader

Hardware

- 1) Computer
- 2) TV with Sub-woofer
- 3) Video Camera
- 4) Video Camcorder
- 5) External Drive
- 6) HDMI Cable

Website

ISP – Dot Easy

Recommended Simple No-Skills/Free or Low Cost Solutions;
Only MS WORD – Use WORD for application and publish WebPage
Create and Store all applications and data in 2TB External Drive (\$60).

9) Conclusion

**I have to work for my own survival until I die.
My invisible digital work helped me in adjusting to my retirement life and reducing my pain and suffering in my old age. I try to learn how to drop my busy visible work and how to search my invisible digital world.
GOD is “GO Digital”**

*What digital legacy am I leaving for my
posterity?*

The End of Presentation
